COMMERCIAL INTELLIGENCE Hongkong, Monday Evening. Everything appears to have combined against the Drug market—absence of native demand, fightness of the mostey-market, disindication on the part of the Bruks to make advances, a further rise in the cata of Exchange on India, and a possibility of its ruling still higher, together with the anxiety on the part

of speculators to clear themselves out in time for the three weeks' time bargain operations, falling due about the 27th. All these have tended to lower the prices, and transactions in new Potos are reported at as low as \$625, and it is difficult to calculate how low it will still rule. There appears to be nothing at present to arrest a further decline but a good native demand, and a strong disposition on the part of the Bolls, not only to withdraw from the market, but to make calls for drugs. Patna of the 6th Sale to arrive on time has been placed at \$6357 and at \$6474 against burgain chop scrips with \$74 on each chest cornest in mey.
